- All our products are biodegradable, made of natural components ,marked under the trademark **GREEN UP**.
- **GREEN UP** products are patent registered & manufactured under ISO 9001, ISO 14001 quality standards.
- **GREEN UP** products are world wide distribution.

About “Green Up” products

Green Up products, replace toxic based chemicals and pollutants.

All R&D, testing and adaption of these green products was executed by a team of Green Life Group engineers in Israel .

Green Life Group are leaders in environment protection and human health. All our products are based on natural, powerful and water-based chemistry.

Our disinfectants, highly effective against a wide range of microorganism including Gram positive / negative bacteria, food related pathogenic bacteria , viruses , yeast and fungi.

Concept of Service

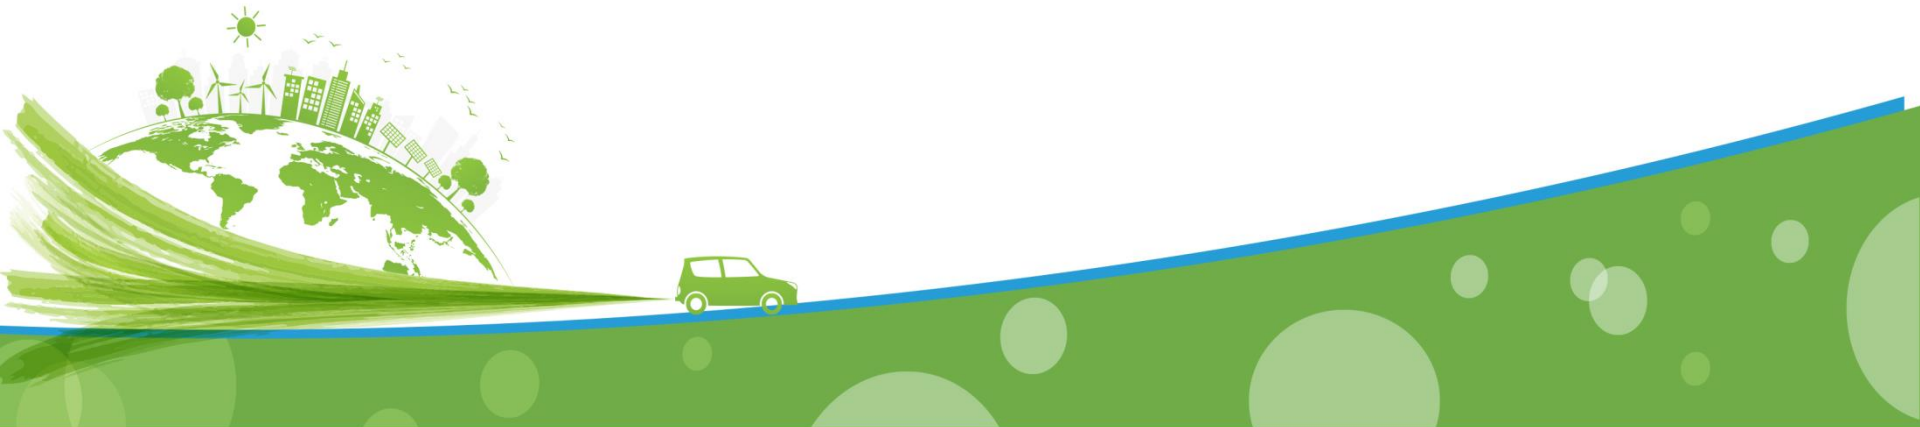

Sanitation of public places: **Green life Group** offers its experience and expertise by using sanitation product such as **ABV** through fogging, producing misty anti bacterial and anti viral coverage.

We sanitize **hospitals and health care institutes, public toilette, offices, governmental and private institutes** and more.

GREEN UP Anti Bacterial and anti Viral product (**ABV**)

- **ABV** is a water based disinfectant product containing a strong and effective bactericide.
- **ABV** is non toxic.
- **ABV** is environmentally, human and animal friendly.
- **ABV** is a based on coconut, pineapple, and citrus extracts
- **ABV** was tested by a **certified FDA** laboratory and the **Israeli Ministry of Health** that found 99.9% effective against the COVID-19 virus without harming human and animal living cells.
